

PORT FOLIO

E. Kofevski

Hey!

My name is Emiliyan Klevski. I am 34 years old and live in Sofia, Bulgaria. I am passionate about climbing in all its forms! I am most comfortable amongst other climbers and feel great inspiration to work for community and the further development of sport.

Outdoors climbing was and still is the best way for me to spend my time and energy.

ANGEL FALLS

Travelling, meeting new people, seeing places and stocking up experiences and knowledge is what I find most meaningful.

Biggest adventure so far for me was my trip to Venezuela as part of the filming crew for the Point Brake 2 movie.

It happened out of the blue when Chris Sharma during his visit in Bulgaria told me he will be stunt at the movie and that the production was looking for other people for the climbing scenes. We ended up at the top of Angel Falls me, Chris, Dani Andrade for one whole month to scout the scenes and of course did many boulders on rocks most probably untouched before my human hand.

RED BULL CREEPERS
PAMPLONA
SPAIN

Other memorable moments for me were from Pamplona, Spain for the first edition of Red Bull Creepers. I was super happy to be on a such great event and compete with the strongest climbers in the world like a: Daniel Woods, Chris Sharma, Iker Poul, Dave Graham, Nalle Hukkataivel and more. Next Year again in a similar format I competed in "Psico Block. Street Games Coruna. It was all great fun and great effort, sometimes ending with a huge splash in the river below.

RILLA NATIONAL PARK

I have been climbing in many places in Europe and USA, still some home crags in Bulgaria are top places for climbing for me. Such is Rila Mountain National Park spectacular place with many boulders, sports and trad and multi-pitch routes. Me and my friends established two beautiful multipitch routes: "Red Thin Line" and "I wanna be".
